COWS on the **PLANET**

Quirky, fun science-based information on beef, raising cattle, and their environmental impact.

Hosted by Canadian researchers:

Dr. Kim Stanford, University of Lethbridge beef researcher

Dr. Tim McAllister, Agriculture and Agri-Food Canada Lethbridge principal scientist

In-depth interviews with researchers, scientists and other experts.

Examples of topics:

- cattle and food waste
- facts about fat in the meat we eat
- vegan nutrition and more..

Supported in part by Canada Beef, and the Beef Cattle Research Council
